A course of usefulness has been

The life of our immented friend,
That did not fall the good to win,
Who mourn him at its happy ond.

A score of years I've known him well;
Fond, faithful, generous and true;
Diligent in business to excel,
But wealth did not distract his soul

But wealth did not distract his soul From confidence and hope in God: Humbly he bowed to his control, And meekly kissed the clustening rod.

His body agonized with pair,
And almost gone his fleeting breath,
Nature would rally once again,
Ere it was paralyzed in death,
The dying Christian then would say,
If this be death, 'tis good to die'
Prepare, dear friends to come away
To happy mansions in the sky.

Beloved wife, come take a kiss-'Tie from the bottom of my heart. But soon, I trust, to meet saain,
To meet where we shall part no more.
A little longer you remain;
Your faithful husband goes before.

There is very little of interest in the Stock market. The absence of operators prevents activity, and a moderate pressure of Stock on the market depresses prices. The expansion of Bank Loans continues, a portion of which is accounted for by the enlargement of the capital of the Bank of Commerce, of which \$1,250,000 has been paid in and loaner out again. The aggregate increase of loans is about \$880,000. The Commerce shows an increase of \$42-000 and the Metropolitan \$440,000. The changes in the ther Banks are net important. With deep regret we announce the death of Mr. Enoch W. Clark, of the firm of E. W. The sales of land by the Illinois Railroad Company in July reached 19,500 acres for \$301,056, at an average of about \$15 50 per aere.

The Philadeiphia Ledger states that the payment of the semi annual interest on the Pennsylvania State debt is progressing steadily. Up to 2 o'clock on Sat-urday afternoon about \$620 000 had been paid out, two thirds of which went to European holders. The remittance of this interest will tend to increase the

specie shipment by the Persia.

The gold brought by the Asia to-day from New-York is ±200,000. The greater portion, if not the whole, is expected to be sent to Paris. Occurring at the present moment, they may be considered serviceable, since they will occasion a temporary pause in the newly-awakened spirit of speculation.

It is known, however, that pur-chases are still being continued, which, at the present rate of excharge, must involve a loss of at least three quarters \$\tilde{e}\$ cert. The reliance of the French Gov-erument on the absence of financial knowledge among the preside appears extraordinary. If a similar operathe people appears extraord nary. A little dullness has been occasioned by the details given relative to the extensive contracts new open in this market for the supply of gold to the Bank of France, but the funds retain much steadiness, owing to the belief that recourse will be had for this purpose to future arrivals, instead of to the Bank's stock.

The arrivals from Ireland and Coastwise during the past week have been quite insignificant. From Foreign Ports, however, we have received 33,357 grs Wheat, 3,047 grs. Barley, 13,941 grs. Indian Corn, 1,517 sacks and 4,044 bbis Flour. With continued rain and unsettled weather there has been a very good consumptive demand for all articles, and great firmness in the trade; the late large American arrivals have so far hadino effect on prices; in fact, as parcels ready for delivery are extremely scarce, holders of such have been enabled to exact rather more money from needy buyers.

At this say's market there was a good attendance of the town and country trade, and of buyers from a distance. Indian Cork was scarcely as muce inquired for as of late; however, holders being generally firm, the sales made were generally at the quotations of Friday, or 1/P quarter over those of this day week.
